

Elisabeth PETIT-TEIXEIRA

Professor, Biology Department, Evry University

Director of European Research Laboratory on Rheumatoid Arthritis - GenHotel-EA3886, Evry

Research areas

- Human Genetics
- Bioinformatics and Biostatistics for human genomic data analyses

Background

Research Assistant, Assistant Professor and Professor **2000-2012**

European Research Laboratory on Rheumatoid Arthritis, France, Genetic and Genomic analyses in Rheumatoid Arthritis

Research Assistant **1997-1999**

Paris XI university/IGM, France, Human genome polymorphisms

Post-Doctoral Fellowship **1996-1997**

Oxford university/Wellcome Trust Centre for Human Genetics, UK, Characterization of mutations in genodermatosis

PhD student **1992-1995**

Tours university/INSERM U316, France, Genetics in Autism

Master **1992**

Orleans university, France, Biochemistry

Teaching & Responsibility

Training officer, Master in Biology degree, Evry & Paris Saclay University **From 2016**

Professor, Biology Department, Evry University **From 2009**

Assistant Professor, Biology Department, Evry University **2003-2009**

Other activities

Consortium

AutoCure (2007 – 2011, Pr. L. Klareskog): European consortium with 26 members dedicated to research of therapeutics for auto-immune diseases: to cure auto-immune diseases

EPRAC (2007, Pr. F. Cornelis): Euro-Mediterranean consortium dedicated to the characterization of a pre-RA profile: *European Pre-RA Consortium*
